

Smart Technology, Made to Care

## Detect

Combined Occupancy/Enuresis Sensor

The Cair Detect is an alternative occupancy sensor.

Simple and easy to use, the Detect can be configured as an occupancy and enuresis sensor in one unit. An in-built sounder can provide audio confirmation along with LED indication which provides additional reassurance to users. Two RJ12 terminal inputs are provided for multiple device connections.

# Detect

Occupancy/Enuresis Sensor

## Features list

- Multiple configurable options
- Simple and easy to use
- Sound and LED Indication
- Interoperable

## Specifications

Compatibility	Tunstall / TeleAlarm / Custom
