

Smart Technology, Made to Care

## CairFall

Fall Detector

**The CairFall is an interoperable, intelligent and easy to configure Fall Detector which can be worn on the wrist or around the neck.**

The clever CairFall allows individuals to move around their home confidently, knowing that an alert will be raised if they suffer a hard fall. It also allows the user to manually call for help. There are five sensitivity settings to suit all levels of activity. The CairFall also features an optional cancellation period and a choice of three radio protocols.

## Features list

- Automatic fall detection with manual call button
- 5 sensitivity levels
- Option to switch cancel period off
- Elasticated wrist strap and neck cord option
- Easy to configure using the button
- Vibration and LED indication
- Interoperable - 3 Protocols within the same device
- IP67 Waterproof
